

Beyond Memories

You came into my life
And made life so exciting
Brought me the love of a lifetime
And made everything dazzling

Skies are blue
Seas are blue
Trees are green
Flowers are red
Butterflies are colorful
And birds are singing and dancing

Look into my eyes and see
How the heart is humming
The soul is happy and dancing
And tears are running and smiling

You came into my life
And made me happy
Gave me beautiful memories
And made life so exciting

I know it is time to go
Because life is short
And love is short
And we must keep marching

You know I must go too
Write and keep on writing
So memories can last
And keep on shining

Some are happy
Some are sad
And many more are lost
And can never stop whining

When our grandchildren are grown
They will read our memories
Feel the romance of old days
And say how enchanting

They will stop wondering
Complaining and whining
They will smile and laugh
And keep on smiling

The past is never past
When memories are recorded
They'll be relived by others
And keep on shining
