

## A Little Wish

She asked with a strange smile  
When would I hear my song  
That conveys true feelings of love  
For which, I so much long

My life is empty  
My eyes are sad  
Yet, I look for nothing grand  
Just something to make me happy  
And for knowing you, so glad

A little poem or a nice song  
A special thing that only to me belong  
To lift my spirit  
And help right what's wrong

You can read your song on my face  
Every time I dive into your eyes  
And whenever you look at me  
While I am laughing and feeling free

You can hear you song every time  
You listen to my heartbeats race  
To embrace the love in your heart  
And secure for it a special place

You can see love's image at midnight  
When the night is peaceful and right  
For lovers to kiss and embrace  
And create memories nothing can erase

You can feel the spirit of love in every place  
Where we spend time together  
Talking, laughing, dancing, singing, crying  
And planting seeds of love to live forever

To be in love is to be  
Like a little working bee  
It makes honey for all to eat  
And never asks anyone for a treat

Love is a magical thing  
It comforts tears in crying eyes  
Calm fears in bleeding hearts  
And frees spirits from all binds

It attracts the joyful and sad  
The young, old, good and bad  
People like you and me  
Who know that love is larger than life  
And deeper than the deepest sea  
Love is a wonderful dream  
That makes everyone happy and free
